Professor Messer: this is also a great source to use as a summary of what you learn. Short videos that are going to help you review the content, here's the playlist for Network+, but you can also find it for A+ and Security+

Assista o Vídeo

I recommend using it just as a refresher, or to see different points of view for the same subject, not as a single source of truth. That advice is valid for anything you want to learn in your career.
